

MATEN[®]

**Industrial
Mats**

Domino

- Available sizes: 150 x 100 cm
- Material: Natural Rubber
- Thickness: 22mm
- Weight: 13 kg/m²
- Color: Black

PLUS

- Available sizes: 150 x 100 cm
- Material: Natural Rubber
- Thickness: 23mm
- Weight: 17 kg/m²
- Color: Black

Domino mats are extremely versatile and durable; also available in PLUS version, made with a more performant rubber and fire certified in class Bfl-s1.

They are excellent work platforms, doormats exposed to bad weather, perfect mats for ski lift facilities and serviceable as anti-trauma flooring.

Washable Durable Draining
Anti-Slip

Comfort Foam

- Available sizes: 60 x 90 cm - 90 x 150 cm
- Material: Sponge and Nitrile Rubber
- Thickness: 13mm
- Weight: 6,1 kg/m²
- Color: Black

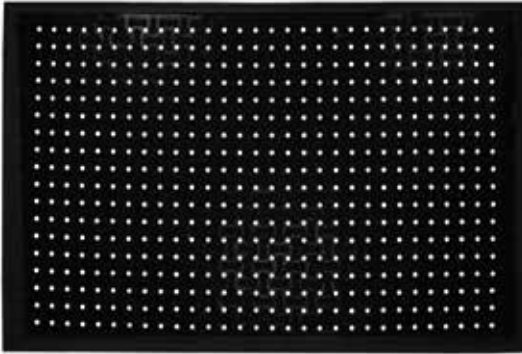

Comfort Foam mats are anti-microbial and anti-fatigue and can be sterilized in autoclave and washed in a domestic or industrial washing machine.

Ergonomic and high quality, their structured surface grants excellent resistance to rubbing and the beveled edges reduce slips and falls; they are resistant to oil, grease, chemical agents and welding sparks and the anti-microbial treatment reduces the bad smells inhibiting the growth of germs and bacteria.

Anti-Fatigue Washable Ergonomic
Anti-Stumbling Anti-Slip Anti-Microbial

Comfort

- Available sizes: **54 x 86 cm - 86 x 142 cm - 86 x 277 cm**
- Material: **Nitrile Rubber**
- Thickness: **9,5mm**
- Weight: **3,6 kg/m²**
- Color: **Black**

Comfort mats are draining and with excellent anti-fatigue properties, designed moist areas where grease, oil and chemical agents could be present.

They are anti-microbial treated to protect them against bad smells and deterioration, static dissipative certificated to allow the use near sensible electronic machinery, lightweight and easy to wash, they also ensure safe welding.

Anti-Fatigue **Washable** **Durable** **Draining**
Anti-Stumbling **Anti-Slip**

Comfort Max

- Available sizes: **61 x 84 cm - 84 x 147 cm**
- Material: **Nitrile Rubber**
- Thickness: **22 mm**
- Weight: **4,4 kg/m²**
- Color: **Black/Yellow, Black**

Comfort Max anti-fatigue mats are designed to offer comfort and durability in a variety of harsh conditions.

They have a structured surface to avoid slipperiness and a closed cells nitrile rubber backing permanently modeled on the surface; they're electrically conductive and safe for welding and the rubber borders don't break nor they curl up.

Long Lasting **Comfortable** **Anti-Stumbling** **Anti-Slip**
Highly resistant to chemical agents **Safe Welding**

Anti-fatigue industrial mats

Within the wide range of Mat.en products various industrial rubber mats are available, designed and manufactured to be used as: anti-trauma flooring, anti-fatigue mats, doormats, mats for ski lift facilities, work platforms, electrostatic and thermal insulating mats and much more

Thanks to their structure and configuration they are perfect and safe also in medical environments, operating rooms and welding stations.
